***Please join us in creating our 2020 Water Calendar***  
***This year's theme:***  
***“I Pledge to Conserve My Drinking Water”***

There are a number of things kids can do to help conserve their drinking water at home.

Examples are;

Shutting off the water while brushing their teeth and washing their hands

Sweep the driveway and sidewalks instead of using the hose

Only run the dish washer when it is full

Taking 5 minute or less showers

Shut the sprinkler off when they are done playing in it

Don't run the water while washing the dishes, instead use one sink for soapy water and one for clean water

And much more.....

Have your students create pictures that depict what they can do at home to help conserve their drinking water. Visit our website [HERE](#) for more indoor water conservation ideas. While visiting our website check out our [Teacher Resource](#) page.

- The contest is open to all k-5<sup>th</sup> grade students in the ***Clackamas River Water Providers service areas.***
- Thirteen pictures (twelve months and the cover) are selected from all of the entries received and at least one picture from each grade will be selected.
- The Clackamas River Water Providers will host online voting to choose which of the 13 pictures will be on the cover of the 2020 calendar.

Attached are:

- Calendar contest rules
- Entry forms (which must be filled out and attached to the back of each picture submitted)

Each school that participates in the contest will receive a box of calendars (about 125).

In addition, each of the students that had a picture selected for the calendar will receive a thank you gift.

All entries must be in our office **no later than 4pm Thursday, May 9th 2019**. We hope you will participate in our project. Please feel free to contact us with any questions you may have.
