Please join us in creating our 2021 Water Conservation Calendar
This year's theme:
“Healthy River, Happy Fish, Happy People”

While the Clackamas river provides drinking water to over 300,000 people it is also home and habitat to many different animals and a number of endangered migrating fish species who spawn in the river throughout the year.

It is up to us to help keep the Clackamas river clean and conserve its water leaving enough in the river for migrating fish.

A river with plenty of clean water for people and fish is a healthy river. A Healthy River, makes Happy Fish and Happy People.

Have your students create pictures that show a healthy river and the things we can do to conserve the river water. Visit our website [HERE](#) for indoor and outdoor water conservation tips, and while visiting our website check out our [Teacher Resource](#) page.

- The contest is open to all k-5th grade students in the ***Clackamas River Water Providers service areas.***
- Thirteen pictures (twelve months and the cover) are selected from all of the entries received and at least one picture from each grade will be selected.
- The Clackamas River Water Providers will host online voting to choose which of the 13 pictures will be on the cover of the 2021 calendar.

Attached are:

- Calendar contest rules
- Entry forms (which must be filled out and attached to the back of each picture submitted)

Each school that participates in the contest will receive a box of calendars (about 125 calendars). In addition, each of the students that had a picture selected for the calendar will receive a thank you gift.

All entries must be in our office **no later than 4pm Thursday, May 7th 2020**. We hope you will participate in our project. Please feel free to contact us with any questions you may have.
