Seattle, WA 98125*

*August 3, 2022*

## Introduction

Pollution Prevention Resource Center (PPRC) is a 501(c)3 nonprofit organization incorporated in the state of Washington in 1990. PPRC is the Northwest Region's largest nonprofit organization that provides on-the-ground technical assistance to local, state, and federal government, communities, nonprofits, businesses, and other partners who are seeking to reduce pollution at its source and improve their economic vitality. Since 2014, PPRC has worked with the Clackamas River Water Providers (CRWP) to deliver technical assistance and outreach to automotive businesses and landscapers using the EcoBiz Certification standards. PPRC has been working with CRWP since 2016 to implement Clackamas River drinking water protection projects.

## Project Overview

During the 2021/22 fiscal year, PPRC contracted with CRWP to continue implementation of drinking water protection projects. The following table outlines the Proposed Tasks and Completed Activities during 2021/22.

| Proposed tasks                                                                                           | Description of work completed                                                                                                                                                                                                                                                                                                                                                                                                                                             |
|----------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Perform outreach at businesses that could receive hazardous material education and technical assistance. | PPRC contacted and offered technical assistance to seventy-six (76) commercial and industrial facilities within the Clackamas River Watershed. See Appendix A for Outreach Map, and Appendix B for Summary of Business Interactions.                                                                                                                                                                                                                                      |
| Provide technical assistance to two (2) commercial and industrial facilities.                            | PPRC provided technical assistance and recommendations reports to two (2) facilities. Each of these businesses received environmental assessments and recommendations to help protect drinking water, as well as spill response signs and spill kits (when needed). (See Appendix B for Recommendations Reports).<br><br><b>NOTE:</b> Outreach success rate continued to be reduced due to impacts from the COVID-19 pandemic and reported staffing issues at businesses. |
| Design outreach materials and assist with the production and distribution of outreach materials.         | PPRC distributed the following materials to businesses: <ul style="list-style-type: none"><li>• Spill Kits (10)</li><li>• Spill Response Signs (17)</li><li>• Brochures (76); (12 printed copies, 64 via email)</li><li>• Free Spill Prevention Tools Flyer (76); (12 printed copies, 64 via email)</li></ul>                                                                                                                                                             |

## Materials Purchased

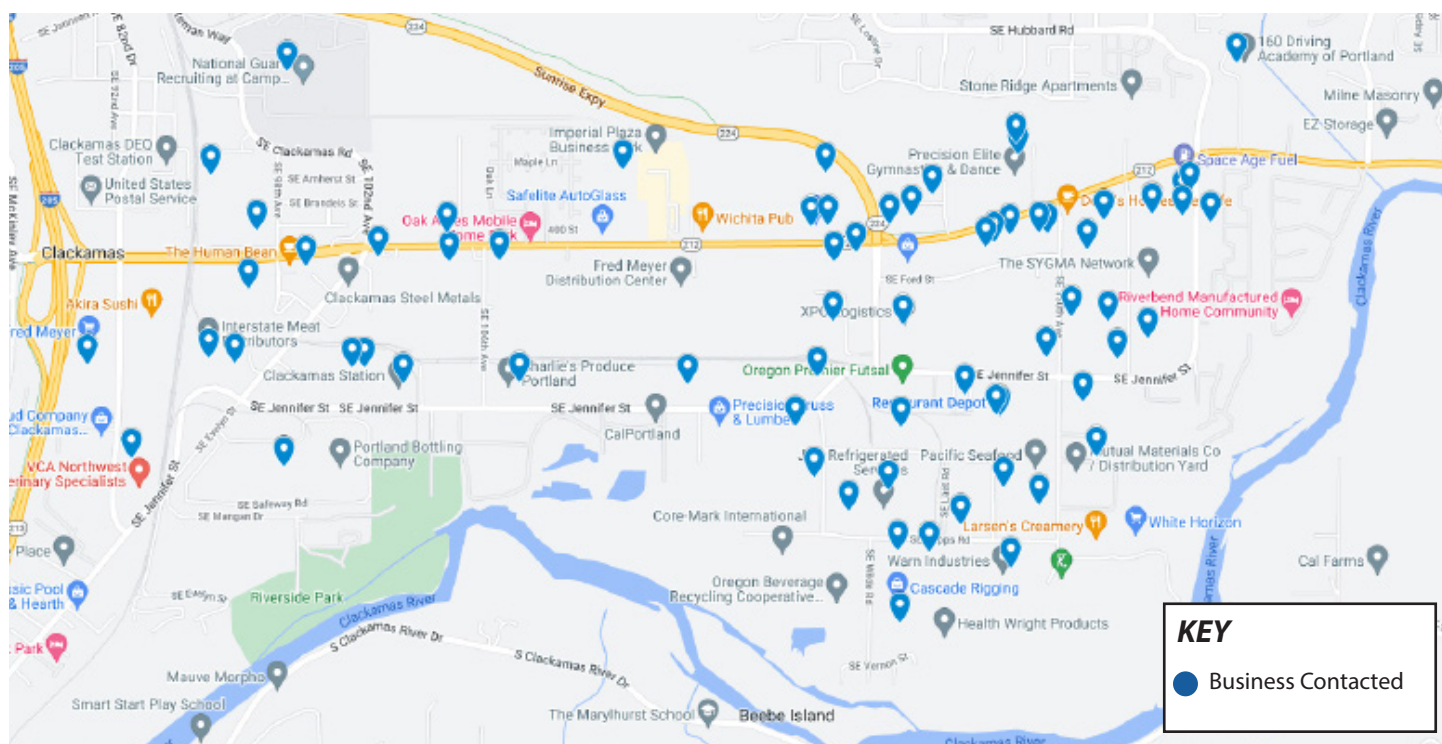

| Business     | Materials                                | Cost              |
|--------------|------------------------------------------|-------------------|
| JG Peterbilt | • Spill Pallet, 4-drum (x1)              | \$316.23          |
|              | • Carport covering for outdoor materials | \$309.99          |
|              | • Spill tray, 4'x4' (x1)                 |                   |
| N/A          | • Spill kits materials (x20)             | \$649.31          |
|              | • Corrugated spill signs (x200)          | \$1,351.72        |
|              | • Emergency stormdrain covers (x2)       | \$1,800.51        |
|              | • Program postcards (x200)               | \$50              |
|              | • Program flyers (x100)                  | \$217.55          |
|              | • Program brochure (x200)                | \$290.62          |
|              | • Facebook Ad                            | \$50              |
|              | <b>TOTAL</b>                             | <b>\$5,035.93</b> |

## P2 Improvements

| P2 Efforts              | Improvement                                                                                         | People Reached |
|-------------------------|-----------------------------------------------------------------------------------------------------|----------------|
| Secondary Containment   | 440 gallons of hazardous material prevented from release                                            |                |
| Outdoor Storage Covered | 1 business constructed a covering for materials stored outside (drums, used tires, and scrap metal) |                |
| Spill Kits              | 10 spill kits at 8 businesses                                                                       |                |
| Spill Signs             | 17 spill signs at 8 businesses                                                                      |                |
| Outreach*               |                                                                                                     | 80             |

\*Outreach: PPRC engaged 76 businesses, 2 of which received environmental evaluations. Evaluations reach an average of three people per business, and outreach is assumed to reach at least one person per business.  $2 \times 3 = 6 + (76 - 2) = 80$

## Appendix A: PPRC Outreach Map

## Appendix B: Summary of Business Interactions

|    | Business                                   | Address                       | Notes                                                                                                                                                                                                                                                                      | Tools Delivered                                                                   |
|----|--------------------------------------------|-------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------|
| 1  | JG Peterbilt                               | 16791 SE 120th Ave            | Conducted a site inspection for CRWP & EcoBiz and delivered a report. Recommended covering outside waste and drums. PPRC purchased a carport for use as covering. Recommended and purchased containment for 55-gallon drums in shop and installed berms for all bay doors. | Spill kit (2), Spill Pallet (1), Spill tray (1), Carport for outdoor storage (1). |
| 2  | Forum Clackamas Campus LLC                 | 16800 SE Evelyn St, Clackamas | Conducted a site inspection and delivered a report. Campus stated they would hand info out to tenants at next safety meeting. Will follow up next fiscal year.                                                                                                             | Spill kit (2), Spill Signs (10), Brochures and flyers (10)                        |
| 3  | Collier Arbor Care / Bartlett Tree Experts | 11814 SE Jennifer St.         | Performed outreach. Spoke with management team. They don't need any further TA, but will be recertified through EcoBiz.                                                                                                                                                    | (1) spill kit, (1) spill sign, (1) brochure, and (1) flyer.                       |
| 4  | First Choice Auto                          | 15679 SE 135th Ave            | Checked in on status from prior recommendations and offered follow-up assistance.                                                                                                                                                                                          | (1) spill sign, (1) spill kit, (1) brochure, and (1) flyer.                       |
| 5  | Honest-1 Auto Care Clackamas               | 15653 SE 135th Ave.           | Checked in on status from prior recommendations and offered follow-up assistance.                                                                                                                                                                                          | (1) spill sign, (1) spill kit, (1) brochure, and (1) flyer.                       |
| 6  | Nelson & Nelson Body & Paint               | 12128 SE HWY 212              | Checked in on status from prior recommendations and offered follow-up assistance. Will follow up next fiscal year.                                                                                                                                                         | (1) spill kit, (1) spill sign, (1) brochure, and (1) flyer.                       |
| 7  | Tims Auto Repair                           | 15688 SE 135th                | Checked in on status from prior recommendations and offered follow-up assistance. Will follow up next fiscal year.                                                                                                                                                         | (1) spill kit, (1) spill sign, (1) brochure, and (1) flyer.                       |
| 8  | Adcoa Gases & Equipment LLC                | 13601 SE Hwy 212              | Performed outreach. Not interested in TA at this time. Will follow up next fiscal year.                                                                                                                                                                                    | (1) spill sign, (1) spill kit (1) brochure, and (1) flyer.                        |
| 9  | American Wood Dryers, INC.                 | 15495 SE For Mor Ct           | Performed outreach. Not interested in TA at this time. Will follow up next fiscal year.                                                                                                                                                                                    | Emailed: Brochure, Spill sign, & Flyer                                            |
| 10 | Anixter Clackamas Hog Wild Toys            | 10145 SE Jennifer St          | Performed outreach. Not interested in TA at this time. Will follow up next fiscal year.                                                                                                                                                                                    | Emailed: Brochure, Spill sign, & Flyer                                            |
| 11 | Applied Industrial Technologies            | 13023 SE Jennifer St #502     | Performed outreach. Not interested in TA at this time. Will follow up next fiscal year.                                                                                                                                                                                    | Emailed: Brochure, Spill sign, & Flyer                                            |

## The Forum Campus at Clackamas

16800 SE Evelyn St, Clackamas, OR 97015

11/29/2021

POLLUTION PREVENTION  
resource center

### PROJECT OVERVIEW

Clackamas River Water Providers (CRWP) has partnered with the PPRC to provide free technical assistance and tools to businesses located in the Clackamas Industrial Area. On November 29, 2021, PPRC completed a voluntary facility site visit at Forum Campus with Chris and Robert. The following recommendations are intended to help The Forum Campus reduce potential impacts to the Clackamas River, the drinking water source to over 300,000 people in Washington and Clackamas Counties.

The Forum Campus is a multi-tenant food manufacturing and distribution hub.

### POLLUTION PREVENTION RECOMMENDATIONS

#### ★ Encourage Businesses Onsite to Utilize Funding

Clackamas River Water Providers is offering to purchase **free spill prevention and containment materials**. After an initial free and non-regulatory site inspection with businesses located within Forum Campus, PPRC can purchase appropriate tools and deliver to each business.

<https://www.clackamasproviders.org/hazardous-material-spill-prevention/>

#### Install Storm Drain Markers

Drain markers remind employees and educate customers that site drains to the Clackamas River, a source of drinking water. *PPRC will install free of charge when weather permits.*

#### Post Spill Response Signs

PPRC provided four (4) signs to post in areas where liquids are stored and transferred. Contact PPRC for additional spill response signs

#### Train Staff & Tenants

CRWP has free training videos and a PowerPoint available on their website, which cover spill response and stormwater / drinking water protection. Please let your tenants know about this program.

## JGP Peterbilt - Clackamas

16791 SE 120th Ave, Clackamas, OR 97015

12/09/2021

POLLUTION PREVENTION  
resource center

### PROJECT OVERVIEW

Clackamas River Water Providers (CRWP) has partnered with the PPRC to provide free technical assistance and tools to businesses located in the Clackamas Industrial Area. On December 9, 2021, PPRC completed a voluntary facility site visit at JGP Peterbilt with Jon. The following recommendations are intended to help JGP Peterbilt reduce potential impacts to the Clackamas River, the drinking water source to over 300,000 people in Washington and Clackamas Counties.

### POLLUTION PREVENTION RECOMMENDATIONS

#### Provide Secondary Containment.

Most liquids at JGP Peterbilt have secondary containment in place. CRWP will provide:

- ☐ One 4-drum spill pallet for new oil drums outside under shed.
- ☐ One 4x4 spill tray for used batteries
- ☐ One 2x drum spill pallet for drums in wash bay.

Additionally, JGP Peterbilt will install berm materials previously given to DSU Peterbilt for all shop bay doors.

#### Install Storm Drain Markers.

PPRC will install three (3) storm drain markers in spring of 2022 to help educate employees and the public.

#### Cover Outdoor Materials.

Add a covered awning or carport outside to cover drums, scrap metal, tires, and any other materials. Any drums containing fluid should be placed on a spill pallet underneath covered area.
